

19 March 2012

Conference Program

PV Project Implementation Conference – China 2012

8:00 Registration/Welcome Coffee

9:00 Welcome address

- *David Gaden, Solarpraxis*

Keynote speech

- 9:05 • *Peter Xie, CEO, GCL Energy:*
Prospects and challenges for large-scale solar in China

Session 1

9:30 Planning and Building

Moderator: *Dylen Liu, Vice President, Pacific Epoch*
Presentations:

- *Tairan Guo, Chief Business Development Officer, China Technology Development Group Corporation:* Experiences from developing large-scale projects in China
- *Sebastian Trimpl, IBC SOLAR (CHINA) Co., Ltd.:* Performance ratio optimization and functional solar power plant operations from an investor's perspective
- *Sebastian Meyer, Director of Research and Advisory, Azure International:* China's emergence as leading solar PV market: lessons from existing distributed energy

10:15 Panel discussion/Q&A

10:45 Coffee break

Session 2 – Part I

11:15 Regulatory Landscape, Financing and Reliability – Opportunities in China

Moderator: *Wu Qiang, COO, REN Energy Group*

Presentations:

- *Wu Hai, Deputy director of Science & Technology bureau, Qinghai province:* Overview of PV project development opportunities in Qinghai province
- *Shu Guoping, Deputy Director, Industry and Information Technology Department, Xinjiang Province, China:* Overview of PV project development opportunities in Xinjiang province
- *Mao Zhongshen, Vice Mayor of Yulin City, Shanxi Province, China:* Overview of PV project development opportunities in Yulin city

12:00 Panel discussion/Q&A

12:30 Lunch

Session 2 – Part II

13:30 Regulatory Landscape, Financing and Reliability – China and the World

Moderator: *Wu Qiang, COO, REN Energy Group*

- *Yanwen Qiu, Deputy Director, Renewable Energy Department (Appraisal Dept.), China Development Bank:* Strategy from the CDB to develop PV projects
- *Felix Holz, Vice President, Deutsche Bank:* Factors for successful project developers
- *Lu Huisheng, Vice Mayor of Huhhot City:* Renewable Energy Eco-system and Opportunity in Huhhot
- *Fred Greguras, K&L Gates:* U.S. business models for project developers – a result of the regulatory and financial landscape

14:30 Panel discussion/Q&A

Session 3

15:00 Operation, Maintenance and Monitoring

Moderator: *Thomas Reindl, Cluster Director Solar Energy Systems, SERIS*

Presentations:

- *George Geng, Managing Director, Sputnik Engineering:* Yield optimisation for big plants – from an inverter perspective
- *Gary Tang, BD Manager, Tigo Energy:* Performance Care: Monitoring and Maintenance of MW-scale Projects
- *Holger Morneweg, General Manager, Solar Data Systems Asia Pacific:* Professional Monitoring: Maximized Security and Return on Investment for Solar PV Plants

15:45 Panel discussion/Q&A

16:15 Coffee Break

Session 4

16:45 Quality Assurance

Moderator: *Eckhart Gouras, Managing Editor, pv magazine China*

Presentations:

- *Wang Yi, Deputy Director, China Electricity Council:* Grid Connectivity
- *Ulrike Therhaag, Director of Solar and Fuel Cells Technologies, TÜV Rheinland:* Existing quality assurance programs
- *Christian Steinberg, Senior Consultant, Solarpraxis:* Project planning and installation: What can go wrong?
- *Knut Wimberger, Managing Director, Fronius China:* How new inverter designs can help to stabilize electrical grids

17:45 Panel discussion/Q&A

18:15 End of Conference
